Nursing Courses

Courses

NURS 5101. Adult/Geri Hlth ClinPrac I.
Application of didactic content from N5324 in institutional and acute patient care settings for a minimum total of 45 clinical practicum hours and simulation to demonstrate competency in the role of the Adult Gerontology Acute Care Nurse Practitioner. Utilize acute and chronic illness management model to optimize health of adults and geriatric adults. Emphasis is on the management of common acute and chronic conditions in adults and geriatric adults. Corequisite with N5324.(Adult & Geriatric Health I)

Department: Nursing
1 Credit Hour
2 Total Contact Hours
1 Lab Hour
1 Lecture Hour
0 Other Hours

Major Restrictions:
Restricted to majors of ACNP

Prerequisite(s): (NURS 5209 w/B or better AND NURS 5228 w/B or better)

Corequisite(s): NURS 5324

This course is designed to extend and refine the assessment skills of the Registered Nurse in preparation for an advanced clinical practice. The student will complete a 45 hour clinical practicum to learn to perform physical, developmental, mental, emotional, cultural, social, and family assessments. Students are required to take Nursing 5220 Advanced Health Assessment either concurrently or as a prerequisite.

Department: Nursing
1 Credit Hour
3.25 Total Contact Hours
0 Lab Hours
0 Lecture Hours
3.25 Other Hours

Major Restrictions:
Restricted to majors of NRPR

Prerequisite(s): (NURS 5220 w/B or better AND NURS 5310 w/B or better AND NURS 5319 w/B or better AND NURS 5338 w/B or better AND NURS 5362 w/B or better AND NURS 5370 w/B or better)

Advanced Clinical Psychopharmacology: This graduate level course is designed to develop competence in prescribing and monitoring psychopharmacological agents used in the treatment of common psychiatric mental health disorders for diverse populations across the lifespan.

Department: Nursing
1 Credit Hour
1 Total Contact Hour
0 Lab Hours
1 Lecture Hour
0 Other Hours

Major Restrictions:
Restricted to majors of NRPR, PMSN

Classification Restrictions:
Restricted to class of GR

Prerequisite(s): (NURS 5121 w/B or better AND NURS 5220 w/B or better AND NURS 5319 w/B or better AND NURS 5362 w/B or better)
NURS 5123. Diag & Manag of Subs Use Dis.
Diagnosis and Management of Substance Use Disorders: This graduate level course provides theoretical foundations for prevention, assessing, and providing evidenced-based treatment for substance use disorders across the lifespan.
Department: Nursing
1 Credit Hour
1 Total Contact Hour
0 Lab Hours
1 Lecture Hour
0 Other Hours
Major Restrictions:
Restricted to majors of NRPR, PMSN
Classification Restrictions:
Restricted to class of GR
Prerequisite(s):
(NURS 5121 w/B or better AND NURS 5122 w/B or better AND NURS 5219 w/B or better AND NURS 5220 w/B or better AND NURS 5232 w/B or better AND NURS 5233 w/B or better AND NURS 5234 w/B or better AND NURS 5319 w/B or better AND NURS 5362 w/B or better)

NURS 5128. Telehealth Rural Srv Del PHM.
Telehealth and Rural Service Delivery for PMH NP: knowledge and skills to deliver comprehensive mental health services utilizing remote technologies in rural areas.
Department: Nursing
1 Credit Hour
1 Total Contact Hour
0 Lab Hours
1 Lecture Hour
0 Other Hours
Major Restrictions:
Restricted to majors of NRPR, PMSN
Classification Restrictions:
Restricted to class of GR
Prerequisite(s):
(NURS 5121 w/B or better AND NURS 5122 w/B or better AND NURS 5219 w/B or better AND NURS 5220 w/B or better AND NURS 5232 w/B or better AND NURS 5233 w/B or better AND NURS 5234 w/B or better AND NURS 5319 w/B or better AND NURS 5362 w/B or better)

NURS 5130. Advanced FNP Skills.
This course is designed to assist students in the development of basic skills. Through the use of both didactic and skills labs students will learn and practice common primary care skills.
Department: Nursing
1 Credit Hour
1 Total Contact Hour
0 Lab Hours
1 Lecture Hour
0 Other Hours
Major Restrictions:
Restricted to majors of NRPR
Prerequisite(s):
(NURS 5121 w/B or better AND NURS 5220 w/B or better AND NURS 5310 w/B or better AND NURS 5319 w/B or better AND NURS 5338 w/B or better AND NURS 5362 w/B or better AND NURS 5370 w/B or better)

NURS 5180. Special Topics.
Special Topics (1-0) One to three credits may be earned. May be repeated as topic varies.
Department: Nursing
1 Credit Hour
1 Total Contact Hour
0 Lab Hours
1 Lecture Hour
0 Other Hours
NURS 5194. Independent Study.
Independent Study (0-0-1) A course designed by the student to meet an individual learning need. Prerequisite: Instructor approval and consent of the Graduate Advisor.
Department: Nursing
1 Credit Hour
4 Total Contact Hours
0 Lab Hours
1 Lecture Hour
3 Other Hours

NURS 5202. Pediatrics IA.
Pediatric IA The graduate level nursing course focuses on the assessment, diagnosis, and evidence-based management of well children and stable pediatric illness in primary care settings within the context of family, environment, and culture. Prerequisites: NURS 5310, NURS 5370, NURS 5338, NURS 5319, NURS 5362, NURS 5254, NURS 5220, NURS 5220, NURS 5121, NURS 5210 and NURS 5246.
Department: Nursing
2 Credit Hours
2 Total Contact Hours
0 Lab Hours
2 Lecture Hours
0 Other Hours
Major Restrictions:
Restricted to majors of NRPR, PMSN
Classification Restrictions:
Restricted to class of GR
Prerequisite(s): (NURS 5121 w/B or better AND NURS 5210 w/B or better AND NURS 5220 w/B or better AND NURS 5246 w/B or better AND NURS 5254 w/B or better AND NURS 5310 w/B or better AND NURS 5319 w/B or better AND NURS 5338 w/B or better AND NURS 5362 w/B or better AND NURS 5370 w/B or better)
Corequisite(s): NURS 5247

NURS 5203. Pediatrics IB.
Pediatrics IB This is a continuation of the graduate level nursing course that focuses on the assessment, diagnosis, and evidence-based management of well children and stable pediatric illness in primary care settings within the context of family, environment, and culture. Prerequisites: NURS 5310, NURS 5370, NURS 5338, NURS 5319, NURS 5362, NURS 5254, NURS 5220, NURS 5121, NURS 5210, NURS 5246, NURS 5205, NURS 5247.
Department: Nursing
2 Credit Hours
2 Total Contact Hours
0 Lab Hours
2 Lecture Hours
0 Other Hours
Major Restrictions:
Restricted to majors of NRPR, PMSN
Classification Restrictions:
Restricted to class of GR
Prerequisite(s): (NURS 5121 w/B or better AND NURS 5205 w/B or better AND NURS 5210 w/B or better AND NURS 5220 w/B or better AND NURS 5246 w/B or better AND NURS 5247 AND NURS 5254 w/B or better AND NURS 5310 w/B or better AND NURS 5319 w/B or better AND NURS 5338 w/B or better AND NURS 5362 w/B or better AND NURS 5370 w/B or better)
Corequisite(s): NURS 5248
NURS 5209. Adv Acute Care Diagnostics.
Focus is on managing complex healthcare problems through the development of evidence-based diagnostic and clinical decision-making skills. Learns to prioritize assess findings and use data to develop diagnostic differentials. Participants evaluate use of advanced diagnostic techniques in terms of best evidence, client values/beliefs, available resources, and clinical expertise.

0 Other Hours

**Major Restrictions:**
Restricted to majors of ACNP

**Prerequisite(s):** (NURS 5121 w/B or better AND NURS 5220 w/B or better)

NURS 5210. Developing Human.
Developing Human This graduate level course focuses on the integration of nursing and developmental theories into health and developmental assessment. Prerequisites: NURS 5310, NURS 5370, NURS 5338, NURS 5319, NURS 5362, NURS 5220, NURS 5221.

**Department:** Nursing

**2 Credit Hours**

**2 Total Contact Hours**
0 Lab Hours
2 Lecture Hours
0 Other Hours

**Major Restrictions:**
Restricted to majors of NRPR, PMSN

**Classification Restrictions:**
Restricted to class of GR

**Prerequisite(s):** (NURS 5121 w/B or better AND NURS 5220 w/B or better AND NURS 5310 w/B or better AND NURS 5319 w/B or better AND NURS 5338 w/B or better AND NURS 5362 w/B or better AND NURS 5370 w/B or better)

NURS 5211. PNP Acute Care Diagnostics.
PNP Acute Care Advanced Diagnostics and Skills (0.5-1.5-0) This graduate level nursing course focuses on the development of evidence-based clinical reasoning to select the appropriate diagnostic tests based upon patient presentation in the acute and critical care settings. This course will also facilitate the interpretation of test results and the development of the clinic skill set necessary for a Pediatric Nurse Practitioner-Acute Care. This course has on campus instruction and a required lab component.

**Department:** Nursing

**2 Credit Hours**

**1.5 Total Contact Hour**
0.5 Lab Hours
1 Lecture Hour
0 Other Hours

**Prerequisite(s):** (NURS 5121 AND NURS 5210 AND NURS 5220 AND NURS 5254 AND NURS 5260 AND NURS 5310 AND NURS 5319 AND NURS 5338 AND NURS 5362 AND NURS 5370)

NURS 5212. Pediatric Acute Care IA.
Pediatric Acute Care IA (2-0-0) This is a graduate level nursing course that focuses on the assessment, diagnosis, and evidence-based management of stable pediatric illness in primary care settings within the context of family, environment, and culture.

**Department:** Nursing

**2 Credit Hours**

**2 Total Contact Hours**
0 Lab Hours
2 Lecture Hours
0 Other Hours

**Prerequisite(s):** (NURS 5121 w/B or better AND NURS 5210 w/B or better AND NURS 5220 w/B or better AND NURS 5246 w/B or better AND NURS 5260 w/B or better AND NURS 5310 w/B or better AND NURS 5319 w/B or better AND NURS 5338 w/B or better AND NURS 5354 w/B or better AND NURS 5362 w/B or better AND NURS 5370 w/B or better)

**Corequisite(s):** NURS 5216
NURS 5213. Pediatric Acute Care IB.
Pediatric Acute Care IB (2-0-0) This graduate level nursing course is a continuation of Acute Care IA to further focus on the assessment, diagnosis and evidence-based management of stable acute, and chronic health conditions of pediatric patients and their families in various acute care settings.
Department: Nursing
2 Credit Hours
2 Total Contact Hours
0 Lab Hours
2 Lecture Hours
0 Other Hours
Prerequisite(s): (NURS 5212 w/B or better AND NURS 5216 w/B or better)
Corequisite(s): NURS 5217

NURS 5214. Pediatric Acute Care IIA.
Pediatric Acute Care IIA (2-0-0) This graduate level nursing course focuses to enhance the student's knowledge on the assessment, diagnosis and evidence-based management of the intermediate complex acute and chronic health conditions of pediatrics patients and their families in various acute care settings.
Department: Nursing
2 Credit Hours
2 Total Contact Hours
0 Lab Hours
2 Lecture Hours
0 Other Hours
Prerequisite(s): (NURS 5213 w/B or better AND NURS 5217 w/B or better)
Corequisite(s): NURS 5221

NURS 5215. Pediatric Acute Care IIB.
Pediatric Acute Care IIB (2-0-0) This graduate level nursing course is the final course for the student to accumulate knowledge on the assessment, diagnosis and evidence-based management of complex intermediate, critical, and chronic health conditions of pediatric patients and their families in various acute care settings.
Department: Nursing
2 Credit Hours
2 Total Contact Hours
0 Lab Hours
2 Lecture Hours
0 Other Hours
Prerequisite(s): (NURS 5214 w/B or better AND NURS 5221 w/B or better)
Corequisite(s): NURS 5222

NURS 5216. Pediatric Acute Care IA Pract.
Pediatric Acute Care IA Practicum (0-0-6) This graduate level nursing course is the first in a series of six practicum courses for those preparing to become a Pediatric Nurse Practitioner-Acute Care. With the guidance and supervision of a preceptor, students provide direct care and begin to learn to manage and formulate a plan of care for stable pediatric patients with acute and chronic illness within a variety of clinical settings. Students will also develop a plan of care for these children in context of family, environment and culture. A minimum of 90 hours of supervised, direct patient care are required to demonstrate competency.
Department: Nursing
2 Credit Hours
6 Total Contact Hours
0 Lab Hours
0 Lecture Hours
6 Other Hours
Prerequisite(s): (NURS 5202 w/B or better AND NURS 5211 w/B or better)
Corequisite(s): NURS 5212
NURS 5217. Pediatric Acute Care IB Pract.
Pediatric Acute Care IB Practicum (0-0-6) This graduate level nursing course is the second in a series of six practicum courses for those preparing to become a Pediatric Nurse Practitioner-Acute Care. With the guidance and supervision of a preceptor, students provide direct care and begin to learn to manage and formulate a plan of care for stable pediatric patients with acute and chronic illnesses within a variety of clinical settings. Students will develop plan of care for these children in context of family, environment and culture. A minimum of 90 hours of supervised, direct patient care are required to demonstrate competency.

Department: Nursing
2 Credit Hours

Prerequisite(s): (NURS 5212 w/B or better AND NURS 5216 w/B or better)
Corequisite(s): NURS 5213

NURS 5219. Neuro Across the Lifespan.
Neuroscience across the Lifespan: This graduate level course is designed to present the theoretical basis for anatomical, biological, and psychological aspects in psychiatric mental health disorders across the lifespan. The physiology of the brain and nervous system, genetics and epigenetics will be examined.

Department: Nursing
2 Credit Hours
2 Total Contact Hours
0 Lab Hours
2 Lecture Hours
0 Other Hours
Major Restrictions: Restricted to majors of NRPR, PMSN
Classification Restrictions: Restricted to class of GR
Prerequisite(s): (NURS 5121 w/B or better AND NURS 5220 w/B or better AND NURS 5319 w/B or better AND NURS 5362 w/B or better)

NURS 5220. Advanced Health Assessment.
This course is designed to extend and refine the assessment skills of the Registered Nurse in preparation for an advanced clinical practice. The student will learn to perform physical, developmental, mental, emotional, cultural, social, and family assessments. Students will review anatomy and physiology related to each biological system being studied. The course emphasizes in-depth techniques for assessing each body system in individuals throughout the life span. Material will focus on the use of a variety of health assessment techniques including history taking skills, physical assessment, and other diagnostic assessment tools. Students are required to take Nursing 5121 Advanced Assessment Practicum (45 hours) either concurrently or upon completion of this course.

Department: Nursing
2 Credit Hours
2 Total Contact Hours
0 Lab Hours
2 Lecture Hours
0 Other Hours
Major Restrictions: Restricted to majors of NRPR
Prerequisite(s): (NURS 5310 w/B or better AND NURS 5319 w/B or better AND NURS 5338 w/B or better AND NURS 5362 w/B or better AND NURS 5370 w/B or better)
NURS 5221. Pediatric Acute Care IIA Pract.

Pediatric Acute Care IIA Practicum (0-0-6) This graduate level nursing course is the third in a series of six practicum courses for those preparing to become a Pediatric Nurse Practitioner - Acute Care. With the guidance and supervision of a preceptor, emphasis is on continued development of advanced clinical skills, exploring evidence-based research and their application to the plan of care for pediatric patients in the acute and chronic intermediate healthcare settings, within the context of family, environment and culture. A minimum of 90 hours of supervised, direct patient care are required to demonstrate competency.

Department: Nursing
2 Credit Hours
6 Total Contact Hours
0 Lab Hours
0 Lecture Hours

Prerequisite(s): (NURS 5213 w/B or better AND NURS 5217 w/B or better)
Corequisite(s): NURS 5214

NURS 5222. Pediatric Acute Care IIB Prac.

Pediatric Acute Care IIB (0-0-6) This graduate level nursing course is the fourth in a series of six practicum courses for those preparing to become a Pediatric Nurse Practitioner-Acute Care. With the guidance and supervision of a preceptor, emphasis is on continued development of advanced clinical skills, exploring evidence-based research and their application to the plan of care for pediatric patients in the acute and chronic intermediate and critical care healthcare settings, such as Specialty Clinics, Neonatal Intensive Care Unit, Emergency Room, General hospital units and Pediatric Intensive Unit within the context.

Department: Nursing
2 Credit Hours
6 Total Contact Hours
0 Lab Hours
0 Lecture Hours
6 Other Hours
Prerequisite(s): (NURS 5214 w/B or better AND NURS 5221 w/B or better)
Corequisite(s): NURS 5215

NURS 5223. Acute Care Adult/Geri Health II.

This 7 week course will build on didactic principles in Adult & Geriatric Health I to utilize acute and chronic illness management to optimize health of adults and geriatric adults. The course will address health promotion, disease prevention practices, patient-focused optimization of health, and end of life care for selected disease states. Emphasis is on the management of common acute and chronic conditions in adults and geriatric adults. Co-requisite with N5224.

Prerequisite(s): (NURS 5101 w/B or better AND NURS 5324 w/B or better)
Corequisite(s): NURS 5224
NURS 5224. Adult/Geri Hlth ClinPrac II.
Application of didactic content from N5223 in acute care patient settings for 90 clinical practicum hours and simulation to demonstrate competency in the role of the Adult Gerontology Acute Care Nurse Practitioner. Utilize acute and chronic illness management model to optimize health of adults and geriatric adults. Emphasis is on the management of common acute and chronic conditions in adults and geriatric adults. Co-requisite with N5223 (Adult & Geriatric Health II)
Department: Nursing
2 Credit Hours

Prerequisite(s): (NURS 5209 w/B or better AND NURS 5228 w/B or better)
Corequisite(s): NURS 5223

NURS 5225. Acute & Critical Illn Pract I.
Acute and Critical Illness Practicum I: The 7 week clinical course applies didactic content from concurrent N5329 for 90 clinical practicum hours and simulation, focusing on stabilization of adults with acute or traumatic health conditions and exacerbations of complex chronic illness. Participants formulate a plan of care and implement interventions to support the patient with a rapid deterioration in physiologic conditions, including the application of basic and advanced life support and other strategies or invasive procedures to regain physiologic stability. Application of these principles will occur in the clinical practicum.
Department: Nursing
2 Credit Hours
2 Total Contact Hours
0 Lab Hours
2 Lecture Hours
0 Other Hours
Major Restrictions:
Restricted to majors of ACNP
Prerequisite(s): (NURS 5101 w/B or better AND NURS 5223 w/B or better AND NURS 5224 w/B or better AND NURS 5324 w/B or better)
Corequisite(s): NURS 5227

NURS 5226. Acute & Critical Illness II.
Acute and Critical Illness II: The 7 week course will build on content of Acute & Critical Illness I focusing on stabilization of adults with acute or traumatic health conditions and exacerbations of complex, chronic illness. Participants develop theoretical knowledge of processes in adults and geriatric adults that include normal physiology, pathophysiologic derangement and other selected pathologies, age-related changes, assessment, diagnosis, and management of acute, critical, and exacerbation of chronic disease states. In addition, participants anticipate and explore patient and family response to life support strategies.
Department: Nursing

**Corequisite(s):** NURS 5237

NURS 5237. FNP Geriatric Health Practicum.
This is a clinical practicum course; the student will apply didactic content of N5236 FNP Geriatric Health. The student will work side by side with a Clinical Preceptor(s), in community-based settings pre-approved by a faculty advisor. A total of 90 or more clinical hours are required to demonstrate competency.

**Department:** Nursing

**2 Credit Hours**

**6.5 Total Contact Hours**

- 0 Lab Hours
- 0 Lecture Hours
- 6.5 Other Hours

**Major Restrictions:**

Restricted to majors of NRPR

**Prerequisite(s):** (NURS 5121 w/B or better AND NURS 5130 w/B or better AND NURS 5220 w/B or better AND NURS 5229 w/B or better AND NURS 5230 w/B or better AND NURS 5231 w/B or better AND NURS 5310 w/B or better AND NURS 5319 w/B or better AND NURS 5338 w/B or better AND NURS 5362 w/B or better AND NURS 5370 w/B or better)

**Corequisite(s):** NURS 5236

Child and Adolescent Psychiatric Mental Health Practicum: This graduate level nursing practicum focuses on assessment, diagnosis and both pharmacological and non-pharmacological intervention with children and adolescents with behavioral, developmental or mental health disorders within the context of their families and communities. This supervised practicum includes 90 clinical hours.

**Department:** Nursing

**2 Credit Hours**

**6 Total Contact Hours**

- 0 Lab Hours
- 0 Lecture Hours
- 6 Other Hours

**Major Restrictions:**

Restricted to majors of NRPR, PMSN

**Classification Restrictions:**

Restricted to class of GR

**Prerequisite(s):** (NURS 5121 w/B or better AND NURS 5122 w/B or better AND NURS 5128 w/B or better AND NURS 5129 w/B or better AND NURS 5220 w/B or better AND NURS 5232 w/B or better AND NURS 5233 w/B or better AND NURS 5234 w/B or better AND NURS 5319 w/B or better AND NURS 5362 w/B or better)

**Corequisite(s):** NURS 5235
NURS 5239. Adult & Older Adult Psych Men Hlt.
Adult and Older Adult Psychiatric Mental Health for PMH NP: This graduate level course provides conceptual models and theories of advanced PMH nursing practice with application to the adult and older adult populations. The course integrates assessment, diagnosis and treatment of psychiatric disorders and comorbid medical illness.

**Department:** Nursing

**2 Credit Hours**

**2 Total Contact Hours**

- 0 Lab Hours
- 2 Lecture Hours
- 0 Other Hours

**Major Restrictions:**
Restricted to majors of NRPR, PMSN

Nursing Courses

NURS 5254. Advanced Practice Nursing Role.
This course focuses on the multifaceted roles of the professional nurse in advanced practice in a variety of clinical settings. The distinct and emerging roles of the clinical nurse specialist and the nurse practitioner are examined along with the legal and ethical implications of advanced practice. Prerequisite: NURS 5553 or 5353 with a grade of B or higher; and departmental approval.

Restricted to majors of ACNP
Prerequisite(s): (NURS 5209 w/B or better AND NURS 5228 w/B or better)
Corequisite(s): NURS 5101
NURS 5329. Acute & Critical Illness I.
Acute and Critical Illness I: The 7 week course focuses on stabilization of adults with acute or traumatic health conditions and exacerbations of complex chronic illness. Participants develop theoretical knowledge of processes in adults and geriatric adults that include normal physiology, pathophysiologic derangement and other selected pathologies, age-related changes, assessment, diagnosis, and management of acute, critical, and exacerbation of chronic disease states. In addition, participants anticipate and explore patient and family response to life support strategies to optimize overall health and well-being.

NURS 6310. Scholarly Foundations for DNP.
This foundational course focuses on analyzing DNP competencies, roles and scholarship within the clinical practice doctorate. The theoretical basis for practice, including nursing and related theories, is explored and the major concepts of evidence-based practice for individuals and populations, leadership, inquiry, innovation change, interprofessional collaboration/teams, and evaluation are critically analyzed as fundamental components of DNP practice. Health informatics as an integral component of evidence-based practice is discussed. Practice inquiry is analyzed as a means to guide science based practice. Prerequisite: Department Approval.

Applied Statistics for Health Providers: This course provides an overview of the logic and appropriate use of descriptive and inferential statistical techniques most commonly reported in the research literature of the health professions. Topics include hypothesis testing, statistical power and effect size, and a review of parametric and nonparametric procedures. Across topics, emphasis is placed on 1) the underlying logic of statistical assumptions, approaches and procedures, 2) interpretation of research findings and implications for practice, and 3) evaluation and critical appraisal of published research.

Major Restrictions:
Restricted to majors of NURS

Classification Restrictions:
Restricted to class of DR,GR

Prerequisite(s): (NURS 6190 w/B or better AND NURS 6200 w/B or better AND NURS 6310 w/B or better AND NURS 6330 w/B or better)

NURS 6320. Health Info Systems/Tech.
The course covers informatics in health care delivery and is designed to be multi-disciplinary in nature and will provide a broad overview of the clinical aspects of information technology, focusing on hardware, software and conceptual models of information. Exploration and evaluation of different data types and models, both discipline specific and interdisciplinary in nature, will be covered. Prerequisite: Department approval.

The course focuses on the dynamic and complex health care system and imperatives to deliver quality health care through clinical initiatives based on evidence-based practice, industry standards, key outcome indicators, and cost-quality directives. Organizational change, innovations, system leadership, organizational culture, business and finance, communications, marketing, models of performance improvement, and evaluation are addressed. The role of interprofessional practice and collaboration within teams is examined to analyze contributes to quality outcomes. Prerequisite: Department approval.

The course focuses on the ethical analysis of complex patient care dilemmas and use of ethical framework in the analysis, design, implementation, and evaluation of policies related to healthcare, financing, practice regulation, assessment, patient safety, quality and efficacy. The policy process, both ideal and practical, will be examined. Examination of how health policy legislation is developed and evolves, including analysis of intended and unintended consequences and discussion of current health care paradigm, health care reforms, and current events and issues will be covered. Prerequisite: Department approval.

The focus of this course will be on human genetic and gene abnormalities and the incorporation of sequence-based health care within evidence-based practice. The course will incorporate new information from the Human Genome Project (HGP), as well as the history and evolution of genetic counseling and the ethical and legal issues that arise daily in these rapidly changing fields. Prerequisite: NURS 6310, NURS 6320, NURS 6330, NURS 6338 and department approval.

NURS 6360. Translating Research to Pract.
This course provides the opportunity to acquire knowledge and skill in evidence based practice that will assist in moving clinical practice to an evidence-based foundation and provides the essential principles, skills, and tools of evidence-based nursing practice. Special emphasis will focus on formulating a question, searching/appraising the literature/evidence, and use of the best evidence. Methods of assessing results relative to interventions, harm, diagnosis, prognosis, and risk and differentiation between evidence-based practice, quality improvement, and research utilization will be presented. Prerequisite: Department approval.

NURS 6370. Epidemiology Border Population.
Use of current concepts of public health, evidence-based recommendations for health promotion and disease prevention, cultural and socioeconomic determinants of health, and cultural diversity and sensitivity to guide D.N.P. practice. Participants will analyse epidemiological, biostatistical, occupational and environmental data to develop, implement, and evaluate clinical prevention and population health along the U.S.-Mexico border. Prerequisite: NURS 6310, NURS 6320, NURS 6330, NURS 6338 and department approval.
Department: Nursing

0 Other Hours
Prerequisite(s): (NURS 6310 w/B or better ) AND (NURS 6320 w/B or better ) AND (NURS 6330 w/B or better ) AND (NURS 6338 w/B or better)

NURS 6380. Advanced Diagnostics.
Focus is on managing complex healthcare problems along the border through the development of evidence-based diagnostic and clinical decision-making skills. Participants evaluate use of advanced diagnostic techniques in terms of best evidence, client values/beliefs, available resources, and clinical expertise. Prerequisite: Department approval.

0 Lab Hours
3 Lecture Hours
0 Other Hours

Major Restrictions:
Restricted to majors of NP
NURS 6470. Chronic Illness & the Border.
Students with guidance/mentoring by DNP faculty & community mentors, will synthesize, integrate, and translate knowledge/skills into evidence-based management of health disparities common to U.S.-Mexico border populations. Focus will be on aging populations along the border or complex, chronic health needs of individuals of any age with mental illness, chronic pain, diabetes, hypertension, pulmonary conditions, or infectious disease and the coordination of care across settings. Seminars will guide the process of designing, implementing, and evaluating therapeutic, cost-effective interventions for a culturally diverse population. Includes 90 clock hours of practicum experience. Prerequisite: NURS 6360 with a minimum grade of "B" or better, may not be taken concurrently; departmental approval

Department: Nursing
4 Credit Hours

2 Other Hours
Prerequisite(s): (NURS 6360 w/B or better)

NURS 6893. DNP Project Practicum.
DNP Project Practicum: This is the culminating clinical practicum course designated to provide participants with the opportunity to synthesize and integrate the knowledge they have acquired in advanced practice settings. In consultation with faculty and community mentors, students will select an area of clinical practice and implement advanced clinical decision-making in the provision of culturally appropriate, patient-center, evidence-based care. Students will develop case presentations from their experiences. Includes 360 clock hours of practicum experience.
