RED 5356. Teach Writng w/Div K-12 Lnrns.

This course highlights research-based teaching tools and strategies to help students develop as effective writers across grade levels and content areas. The course is based on five key principles: the importance of reading and writing as tools for learning across content areas; the view writing as a process closely tied to thinking; the role of grammar and sentence structure in communicating meaning; the need for writing instruction to be responsive to students' linguistic and cultural backgrounds; the importance of tailoring writing instruction to meet the needs of struggling writers. Prerequisite:

RED 5300, may be taken concurrently

RED 6315. Discursive Practices in Educ.

This course involves an intensive investigation of the social nature of language and interaction, looking closely at questions of learning and the ways in which cognition is socially distributed. Students will seek to understand how social identities are constructed and performed in discourse communities; they will explore the linguistic foundations for a theory of practice; and they will examine discursive resources and language socialization. This course will involve the analysis of linguistic and sociocultural qualitative data in education, using published studies as well as original data. Restricted to level of DR.

RED 6318. Literacies in the 21st Century.

Literacies in the 21st Century: This course explores how new modes of communication in the digital age have transformed the ways in which children, youth, and adults engage in literate practice both inside and outside of school. Key topics include: the emergence of "new" literacies; multi-modality and meaning-making; media literacy; digital storytelling; and the integration of digital literacies into K-12 and community education programs. Special emphasis is placed on literacies of the U.S.-Mexico border and the literacy education of emergent bilinguals/English language learners.

RED 6344. Seminar in Literacy.

Research in the field of literacy studies over the past three decades has increasingly examined the ways in which literacy shapes and is shaped by social context, adding to and complicating our understanding of reading and writing across diverse settings. This course explores the interrelationships among reading, literacy, and culture from critical, social, and historical perspectives. It will draw on theoretical contributions from anthropology, psychology, and sociolinguistics to interrogate literacy/biliteracy research in a variety of educational settings.
