SOWK 5332. SOWK Theory & Pract w/Families.

This course continues to build on the series of theory and practice courses to advance knowledge and skills in family social work practice. A focus on specific interventions in the assessment and treatment of family problems within a border context will overlay an examination, from an evidence based practice lens, of family therapy, theory, and family social work practice. Mandatory student participation in simulated family session and case analysis from the student's field placement will provide a practice context to refine critical thinking, assessment, and intervention skills.

SOWK 5333. SOWK Theory & Pract w/Groups.

This course expands students' knowledge and practice skills in social work group theory and practice. Students will build upon theory, knowledge and practice skills covered in SW Practice and Theory with Individuals to include group work methods and skills. Students will critically examine how race, culture, gender, class, and stressors influence the group process. Using an evidence-based practice lens, students will expand practice skills and knowledge with clients with diverse challenges and in various professional social work settings with attention given to group work in the group work in the border region.
