

Psychiatric Mental Health (Across the Lifespan) Nurse Practitioner Post Graduate Certificate

The Psychiatric Mental Health (Across the Lifespan) Nurse Practitioner Post Graduate Certificate is designed to prepare nurses to provide a wide range of mental health services through a bio-psychosocial model of care in community, acute care and telemental-health settings. It includes the study and application of evidenced-based diagnostic and treatment modalities, theories and approaches to practice for patients with common and complex mental health conditions throughout the lifespan.

Educational Outcomes:

- Apply theoretical perspectives, scientific evidence, and visionary thinking to critically analyze and lead complex organizational systems and implement innovative change.
- Use interpersonal, inter-professional and organizational communication and relationship building skills to create and lead highly functioning, reliable and healthy inter professional teams.
- Combine business skills and principles, evidence-based practice, informatics, quality and safety strategies and metrics to lead care systems for improvement of processes and outcomes to improve health outcomes.
- Employ state, federal and global health policy(ies) to advocate for healthcare reform and improve health outcomes for all.
- Model professionalism, integrity, ethical decision making, respect for differing points of view in diverse populations and promoting social justice in the development of the advanced practice role.
- Utilize research for the improvement of nursing practice and the advancement of nursing as an academic discipline.
- Ascertain the knowledge, skills, and attitudes necessary to continuously improve the quality and safety of the health care systems in which they practice through lifelong learning.

Admission Requirements:

Applicants with a Masters in Nursing with Advanced Practice Registered Nurse (APRN) Recognition:

- Proof of a current unencumbered license to practice as a Nurse Practitioner, Certified Nurse Midwife, Certified Nurse Specialist, and/or Certified Registered Nurse Anesthetist.
- Evidence of an earned Master's degree in Nursing from an accredited College or University in the United States or equivalent education at a foreign institution.
- Satisfactory score on TOEFL as defined by the Graduate School for international applicants whose first language is not English or who have not completed a university degree in the U.S.
- Current resume or CV.
- Formal Letter of Intent - the letter should identify the program or NP concentration you are applying to and tell us why you are applying to that specific program/NP concentration. Please include relevant RN or APRN experience (specific to the program/NP concentration you are applying for), and provide the names of all schools/universities that you have attended. Please include future career goals/plans you have after obtaining your degree or NP certification. Be sure that your one-page, business formatted, formal, Letter of Intent is free of typographical, grammar or punctuation errors, as well as misspellings. The content should be organized in a logical manner.

Applicants with a Masters in Nursing without Advanced Practice Registered Nurse (APRN) Recognition:

- Proof of a current unencumbered license to practice as a Registered Nurse (RN).
- Evidence of an earned Master's degree in Nursing from an accredited College or University in the United States or equivalent education at a foreign institution.
- Satisfactory score on TOEFL as defined by the Graduate School for international applicants whose first language is not English or who have not completed a university degree in the U.S.
- Current resume or CV.
