

BBA in Finance

Finance is the study of resource allocation, that is, the process, markets, institutions, and instruments that facilitate the transfer of money and wealth.

The Finance major provides students with the theoretical framework and analytical tools and techniques to handle a variety of finance and business functions. The program is designed to prepare a student for financial positions with non-financial corporations, the financial services industry, energy companies, small businesses, and real estate firms.

Marketable Skills

1. Critical thinking: Analyze and evaluate issues to solve problems and develop informed opinions.
2. Global awareness: Understand and appreciate people, cultures, and ideas from around the world that impact our community.
3. Leadership: Step up, think, and act critically and creatively to bring others together to accomplish a common task.
4. Organization: Use resources effectively and efficiently to stay focused on different tasks.
5. Problem-solving: Find solutions to difficult or complex issues.
6. Time management: Prioritize goals and organize time to be more productive and efficient.

Learning Outcomes

1. Students will assess an organization's strengths, weaknesses, opportunities, and threats and will integrate these factors into a viable strategic plan.
2. Students will analyze a firm's financial and accounting information identifying firm strengths and weaknesses and will develop suitable strategies to improve corporate performance.
3. Students will recognize, measure, and analyze market demand for a product or service and will integrate this analysis into an effective marketing strategy.
4. Students will understand the role of financial markets and institutions in our economy and will integrate these monetary factors into an effective decision-making process.
5. Students will employ production operation models to supply chain problems and will recommend the operating strategy that maximized shareholder value.
6. Students will integrate decision processes and models from management, marketing, economics, finance, and accounting into the value creation process.

Fast Track

The Fast-Track Program (<http://catalog.utep.edu/admissions/undergraduate/fast-track/#text>) enables outstanding undergraduate UTEP students to receive both undergraduate and graduate credit for up to 15 hours of UTEP course work as determined by participating Master's and Doctoral programs.

Not all undergraduate programs have elected to participate in the Fast Track option, so students should see their departmental graduate advisor for information about requirements and guidelines. A list of courses that have been approved for possible use at the graduate level is found here (<http://catalog.utep.edu/admissions/undergraduate/fast-track/#fasttrackcoursestext>).

BBA in Finance with a Concentration in Risk Management

The concentration in Risk Management within the BBA in Finance is built around the general concept of digital Integration. Digital integration applies the theory of Actuarial Science and Finance using common computer software (Excel, SAS, Eviews) with real world data, so that the students are prepared to perform on-the-job from day one. Academy Learning encourages students to interact, to improve their understanding of the material, and to model the personal interaction in the insurance industry. These concepts form the basis of the degree plan and model the skills used in the working environment of the business world.

Educational Objectives

1. Students will be prepped to take and pass two of the required exams to become an actuary: the P (Probability) and F/M (Financial Mathematics) exam, administered by the SOA. Students will be strongly encouraged to take the F/M exam in the Spring of their sophomore year and the P exam in the Spring of their junior year. Specific prep classes are part of the degree plan. In addition, the students will be prepped to take the MLC (Models for Life Contingencies) exam based on the material covered, after graduation.
2. Students will have strong skills applying common computer software that is widely used in the insurance industry. They will be able to build complex Excel spread sheets, write VBA Excel macros, create statistical and forecast models in SAS, manipulate and organize large datasets in SAS and Excel, and develop actuarial models based on the life market.
3. Business and interpersonal skills will be developed based on the Academy Learning design, business workshops, and through written reports and presentations.

Total Hours**120****Business Designated Core**

Although the UTEP choice is larger, these choices satisfy the requirements of both the core and the major.

All courses listed within this degree require a grade of C or better for successful completion.

Code	Title	Hours
Mathematics		
Select one of the following:		
MATH 1411	Calculus I	
MATH 1320	Math for Social Sciences I	
MATH 1508	Precalculus	
Social and Behavioral Sciences		
Required:		
ECON 2303	Principles of Macroeconomics	3
The following additional courses are also recommended:		
COMM 1302	Business/Profession Comm	

MATH 1320	Math for Social Sciences I
PHIL 2306	Ethics

University Core Curriculum

The department may make specific suggestions for courses which are most applicable towards your major.

All courses require a C or better

I. Communication (six hours)

Code	Title	Hours
The objective of the communication component is to enable the student to communicate effectively in clear and correct prose or orally in a style appropriate to the subject, occasion, and audience.		
Select six hours of the following:		6
For students whose secondary education was in English:		
COMM 1611	Written and Oral Communication	
ENGL 1313	Writing About Literature	
RWS 1301	Rhetoric & Composition I	
RWS 1302	Rhetoric & Composition 2	
RWS 1601	Rhetoric, Composition & Comm	
For students whose secondary education was not in English:		
ESOL 1311	Expos Engl Compos-Sprk Esl	
ESOL 1312	Res & Crit Writng Spkr Esl	
Total Hours		6

II. American History (six hours)

Code	Title	Hours
The objectives of the history component are to expand students' knowledge of the origin and history of the U.S., their comprehension of the past and current role of the U.S. in the world, and their ability to critically evaluate and analyze historical evidence. U.S. history courses (three hours must be Texas history) include:		
HIST 1301	History of U.S. to 1865	3
HIST 1302	History of U.S. Since 1865	3
Total Hours		6

III. Language, Philosophy & Culture (three hours)

Code	Title	Hours
The objective of the humanities component is to expand students' knowledge of the human condition and human cultures, especially in relation to behaviors, ideas, and values expressed in works of human imagination and thought. Through study in disciplines such as literature and philosophy, students engage in critical analysis and develop an appreciation of the humanities as fundamental to the health and survival of any society.		
Select one of the following:		3
AFST 2300	Intro-African Amer Studies	
CHIC 2302	Latina/o Presence in the U.S.	
ENGL 2311	English Literature	
ENGL 2312	English Literature	
ENGL 2313	Intro to American Fiction	
ENGL 2314	Intro to American Drama	
ENGL 2318	Intro to American Poetry	
FREN 2322	Making of the "Other" Americas	
HIST 2301	World History to 1500	
HIST 2302	World History Since 1500	
PHIL 1301	Introduction to Philosophy	
PHIL 2306	Ethics	
RS 1301	Introduct to Religious Studies	

SPAN 2340	Seeing & Naming: Conversations	
WS 2300	Introduction to Womens Studies	
WS 2350	Global Feminisms	
Total Hours		3

IV. Mathematics (three hours)

Code	Title	Hours
The objective of the mathematics component is to develop a quantitatively literate college graduate. Every college graduate should be able to apply basic mathematical tools in the solution of real-world problems.		
Select one of the following:		3
MATH 1309	College Algebra	
MATH 1310	Trigonometry and Conics	
MATH 1319	Math in the Modern World	
MATH 1320	Math for Social Sciences I	
MATH 1411	Calculus I	
MATH 1508	Precalculus ^{1,2}	
MATH 2301	Math for Social Sciences II	
STAT 1380	Statistical Literacy	
STAT 2480	Elementary Statistical Methods	
1 A higher-level course in the calculus sequence can be substituted.		
2 TCCN MATH 1314 will also satisfy this requirement.		
Total Hours		3

V. Life & Physical Sciences (six hours)

Code	Title	Hours
The objective of the study of the natural sciences is to enable the student to understand, construct, and evaluate relationships in the natural sciences, and to enable the student to understand the bases for building and testing theories. The courses listed are for non-majors; the major courses in the discipline can be substituted for the non-major sequence. A minimum of two semesters of lecture and one semester of laboratory associated with one of the courses, or two semesters of combined (3 credit) lecture-laboratory courses (Only six hours apply toward the required 42.):		
Select one of the following:		1-4
ASTR 1107	Astronomy Lab I	
ASTR 1307	Elem Astronomy-Solar System

PHYS 2321	Introductory Electromagnetism

Total Hours **6**

VI. Political Science (six hours)

Code	Title	Hours
------	-------	-------

The objectives of the political science component are to expand students' knowledge of the origin and evolution of the U.S. and Texas political systems, focusing on the growth of political institutions, and on the constitutions of Texas and the United States; and to enhance their understanding of federalism, states rights, and individual civil liberties, rights, and responsibilities.

Required Courses:

POLS 2310	Introduction to Politics	3
POLS 2311	American Gover & Politics	3

Total Hours **6**

VII. Social and Behavioral Sciences (three hours)

Code	Title	Hours
------	-------	-------

The objective of the social and behavioral science component is to increase students' knowledge of how social and behavioral scientists discover, describe, and explain the behaviors and interactions among individuals, groups, institutions, events, and ideas. Such knowledge will better equip students to understand themselves and the roles they play in addressing the issues facing humanity.
