EDT 4300. Educational Technology.
Educational Technology: This course covers the fundamentals of educational technologies that support teaching and learning, including: technology, historical development, learning theories, social impacts, and ethical implications. It focuses on building proficiency in the application of technologies that improve communication and collaboration within schools. Students will examine and evaluate educational technologies in relation to national and state standards, with an emphasis on integrating technology into teaching to promote children's digital literacy and learning across academic content areas.
