Philosophy Courses

Courses

PHIL 1301. Introduction to Philosophy.
Introduction to Philosophy (3-0) This course introduces students to some of the major issues in philosophy. The ideas, eras, and important philosophers will be examined. The traditional categories of reality, knowledge, values, and meaning will be the focus, though recent and comparative areas may be included. The development of the student's critical thinking skills is the major objective of this course.

PHIL 3301. Philosophy of Mind.
Philosophy of Mind (3-0) This course is a survey of central issues in contemporary philosophy of mind. We will consider different accounts of the relations between minds and the physical world, including whether computers could ever have thoughts or consciousness. Central to our investigation will be the problem of how mental states causally interact with neural states. In addition, we will address questions concerning how much our thoughts and experiences depend on the nature of our environments, and how much they are determined by our innate dispositions.

PHIL 4307. Feminist Philosophy.
Feminist philosophy is a field of inquiry that challenges traditional answers to and proposes competing answers to central questions in a variety of philosophical subfields, such as ethics, political philosophy, epistemology, metaphysics, philosophy of language, philosophy of science, among others. It does so on the grounds that oppression and privileges, conceptions of gender, and women's lives deserve philosophical consideration and may change the way that we understand philosophical problems. This course will introduce students to the variety of views in feminist philosophy or it will focus on a particular set of philosophical arguments within one subfield. Crosslisted with WS 4307.
