Social Science Education Courses

Courses

Integration and Alternative Representations of Basic Social Science Principles (3-0) A cross-disciplinary course which integrates basic concepts in
the social sciences. Topics will be selected from the various disciplines. Course will emphasize interrelationships among the various disciplines and
alternate conceptual representations of identified basic concepts. The representations will be analyzed to determine the skills and conceptual levels
necessary to understand them. Restricted to minor: ALTC. Prerequisite: Admission to Teacher Education.

Department: Social Science Education
