SOWK 3347. Soc Work with Native American.

This course explores historical events and culture relative to Native Americans, and how this impacts social work practice in the border region. This course utilizes lecture, film, guest presentations, reading and assignments, and active discussion to achieve learning objectives. Students are expected to read all assignments, and should be prepared to discuss them actively during class. Grades are based primarily on quality of participation, weekly readings and journal entries, periodic new summaries, and an independent research project. Participation in classroom discussion is essential.

SOWK 3348. Health & Env:Planning for Sust.

The course aims to create an interdisciplinary approach to examine the links between the environment (physical, natural, and social) and the physical and mental health of individuals and the communities they live in. Touching on the fields of public health, social work, and urban planning, the fundamental idea of the course is to explore the relationship between these three fields and to illustrate that how and what we build has tremendous influence in how we live and how we maintain our physical and mental well-being. Students in various disciplines will understand these links and formulate responses and solutions based on their understanding of their respective fields. The course will examine national perspectives with emphasize on issues affecting the El Paso/Ciudad Juarez border region.
