Special Education Courses

Courses

SPED 3310. Intro to Inclusive Spec Ed.
Introduction to Inclusive Special Education. This course covers the philosophical, historical, and legal foundations of special education, including the definitions and characteristics of disabilities as defined by the Individuals with Disabilities Education Act. Emphasizes professional roles and responsibilities, ethical requirements, inclusive practices, and strategies for collaboration between general and special educators, family members, and related service providers. This course requires at least 15 documented field-based experience hours in public-school settings.

SPED 4360. Sr Proj: Pedagogy & Community.
This course is designed to fulfill the senior capstone requirement in Pedagogy & Community Studies. The course will cover different approaches to community-based educational research, with an emphasis on participatory action research and project evaluation. Building upon acquired research skills and evolving interests, students will conduct an independent research project in partnership with a community-based educational organization. Course meetings will provide a thematic focus as well as a forum for both support and constructive feedback from peers, in preparation for students' public presentations of their research projects at the close of the semester.
