**UNIV 1301. Seminar/Critical Inquiry.**
Seminar in Critical Inquiry: [TCCN EDUC 1300] This course will engage entering students in critical inquiry concerning one or more related academic topics. The seminar will increase students' knowledge of the role of technology in the academic community. Information acquisition, critical thinking, and communication will be integrated in an active learning environment. Students will conduct library and electronic research to support one or more academic projects. Specific topics may vary with instructor.
