Public Health Sciences Courses

Courses

PUBH 5302. Epidemiology for Pub Hlth Prof.
Epidemiology for Public Health Professionals. Core course considers the meaning, scope, and applications of epidemiology to the practice of public health and the uses of statistics for the scientific appraisal and dissemination of public health data. Prerequisite: One prior UG or GR statistics course with grade of "B" or better.
Department: Public Health
3 Credit Hours
3 Total Contact Hours
1 Lab Hour
2 Lecture Hours
0 Other Hours

PUBH 5304. Environmental Health.
Environmental Health. This core course examines how current environmental factors seriously impact human health. The course combines public health and systems thinking perspectives to understand the associations among environmental risk factors, human health and environmental health disparities. Students will use new knowledge to consider risk assessment and management, and how to influence decision making and policy development. Students will be required to apply systems knowledge under a global perspective and to design interventions for mitigating common regional and global communities environmental risk factors.

PUBH 5395. Graduate Project I.
Graduate Project I Individual research or development of a project/proposal on public health topic under the direct supervision of a graduate faculty member. Initial work on the graduate project.
**Department:** Public Health
**Credit Hours:** 3
**Total Contact Hours:** 3
**Lab Hours:** 3
**Lecture Hours:** 3
**Other Hours:** 3
**Major Restrictions:**
Restricted to majors of MPH

PUBH 5396. Graduate Project II.
Graduate Project II Continuous enrollment required while work on the graduate project continues. Satisfactory completion of the course includes a written report and oral presentation.
**Department:** Public Health
**Credit Hours:** 3
**Total Contact Hours:** 3
**Lab Hours:** 0
**Lecture Hours:** 0
**Other Hours:** 3
**Major Restrictions:**
Restricted to majors of MPH

**Prerequisite(s):** (PUBH 5395 w/P or better)

PUBH 5397. Graduate Research Project.
PUBH 5397: Graduate Research Project Individual research or development of a project/proposal on a public health topic under the direct supervision of a graduate faculty member. Requires satisfactory completion of the course, including a written report and oral presentation. Prerequisite: Departmental Approval
**Department:** Public Health
**Credit Hours:** 3
