

Minor in Psychology

At the Bachelor's Level, graduates can pursue a career in marketing, human resources, university admissions offices, social service worker, mental health assistant. Any career that involves understanding human behavior and the ability to analyze data.

Marketable Skills

Students will develop the following marketable skills:

- Critical thinking: Analyze and evaluate issues in order to solve problems and develop informed opinions
 - In particular, the ability to distinguish scientific vs non-scientific claims
- Research: Be able to search, investigate and critically analyze information in response to a specific research question
 - Be able to develop a research design and statistically analyze data
- Social responsibility: Act ethically and responsibly for the benefit of society and the public good
 - Development of Professional Ethics
- Writing: Be able to write in a clear and comprehensible manner to the reader
 - Learn technical writing--- specifically, APA Style

Additionally, students will learn the ability to apply psychological knowledge to real-world problems. Should be able to formulate a career plan: including a plan for further education (given how many careers depend upon advanced degrees).
