

BS in Neuroscience

The Bachelor of Neuroscience is designed to meet the modern demands of neuroscience and caters specifically to students interested in research or clinical careers. This degree is designed to place increased importance on the interdisciplinary nature of the field of neuroscience, and build professional and research skills along with knowledge. At the heart of this degree plan is the flexibility for students to pursue their own interests and customize their education to serve their career goals.

The BS in Neuroscience has two tracks: Biology and Psychology

Marketable Skills

1. Communication: Reach mutual understanding through the effective exchange of information, ideas, and feelings.
2. Critical thinking: Analyze and evaluate issues in order to solve problems and develop informed opinions.
3. Organization: Use resources effectively and efficiently in order to stay focused on different tasks.
4. Problem-solving: Find solutions to difficult or complex issues.
5. Research: Be able to search, investigate and critically analyze information in response to a specific research question.
6. Time management: Prioritize goals and organize time to be more productive and efficient.

Learning Outcomes

1. Factual Knowledge/Critical Thinking
2. Understanding and Applying Key Principles
3. Students are able to design experiments (or otherwise test scientific hypotheses)
4. Students are expected to carry out basic experiments or other hypothesis testing in the laboratory and/or the field.
5. Students will be able communicate orally, in writing, and develop collaborative skills.

Fast Track

The Fast-Track Program (<http://catalog.utep.edu/admissions/undergraduate/fast-track/#text>) enables outstanding undergraduate UTEP students to receive both undergraduate and graduate credit for up to 15 hours of UTEP course work as determined by participating Master's and Doctoral programs.

Not all undergraduate programs have elected to participate in the Fast Track option, so students should see their departmental graduate advisor for information about requirements and guidelines. A list of courses that have been approved for possible use at the graduate level is found here (<http://catalog.utep.edu/admissions/undergraduate/fast-track/#fastrackcoursestext>).
