

Accounting and Information Systems

The Department of Accounting and Information Systems at The University of Texas at El Paso shares with the University its fundamental mission to provide the highest quality education to citizens of El Paso and the West Texas region. The Bachelor of Business Administration-Accounting (BBA-Accounting) is designed as an in-depth study of the basic topics of accounting and intends to provide students the knowledge and skills necessary for entry into accounting positions in public, private, and governmental or other not-for-profit organizations, as well as the educational background necessary for entry into a graduate program. The BBA-Accounting concentration and the Master of Accountancy degrees are accredited by the Association to Advance Collegiate Schools of Business (AACSB International). The BBA-Accounting concentration does not provide the total number of hours of coursework necessary to academically qualify a candidate for the Uniform CPA Examination in the State of Texas.

Hunt College of Business, with departments of Accounting and Information Systems, Economics and Finance, and Marketing and Management, offers a BBA degree with the following majors: Accounting; Information Systems; International Business; Economics; Finance with concentrations available in Financial Analyst, Risk Management, and Banking and Financial Institutions; General Business with concentrations in General Business; Management with concentrations available in Entrepreneurship, General Management and Human Resource Management; Marketing; and Operations and Supply Chain Management.

Transfer credit for upper-division business administration courses is restricted to AACSB-accredited curricula. Transfer credit for courses from institutions outside the United States will be evaluated independently.
