Minor in Banking and Financial Institutions

The minor in Banking and Financial Institutions is designed, with substantial input from the financial services industry, to fill a stated need for undergraduate students who have knowledge of the banking and other related industries and are able to provide banking specific skills to the industry, upon entering the profession. Therefore, the minor focuses heavily on providing skills that are key to establishing a successful career in banking related professions.

The minor contains 12 SCH and is open for business majors who are non-finance majors only.
